#### Capture those holiday moments

Globetrottergirls.com has 10 ideas for displaying your favourite holiday snaps.

1. Canvas print. This could be a single giant picture, or a collage that combines 50 scenes from the same holiday.
2. A chalkboard frame. Place the picture in the middle and scrawl whatever messages you want around it.
3. Fridge magnets. Either fix a magnetic strip to the back of a printed photograph, or upload high-res snaps of anywhere and get the magnet made by a professional company.
4. Mugs. Any picture, be it a holiday photo or not, can be printed on a personalised mug.
5. A photo clock. It could be a simple plate-shaped hanging picture with hands — or alternatively the clock could just be at the centre of a ring of photographs.
6. A calendar made up of holiday snaps.
7. A recycled door. Old-style doors with glass panelling are perfect for preserving photographs.
8. A pillow/cushion case — a nice way to cuddle up to happy memories.
9. A hot water bottle.
10. A duvet cover. A high-res picture of your holiday can make bedtime a time to remember.
